

B3 GERMANY

MASTER Series LED Flood Light

Modular flood light fixture meets various standards for both indoor and outdoor floodlighting. The modern design, with unique replaceable LED module, driver module, creative heat sink technology and famous brand LED chips with lens, provide unprecedented performance and value with the most attractive LED lighting solution.

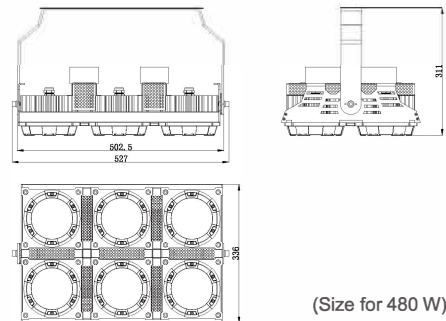

Features

- Professional optical design, precise light distribution, low light glare
- 15°/30°/60°/90°/120° beam angle available
- High lumen efficiency 125 lm/W
- IK08 and IP65 (optionally IP66)
- Philips/Meanwell driver, CREE/OSRAM/Lumileds LED, 5 years warranty
- High light transmittance tempered glass
- UV protection PC lens
- Cold forging technology + anodic oxidation for housing part. (improved safety)
- Replaceable modular design

Applications

- High mast construction area
- Football court, tennis court
- Stadium, theater, gym, garage
- Airport terminal, railway station
- Sea port, highway crossroad
- Warehouse, parking lot, courtyard, etc.
